

# Detecting Cancer Early Research Priorities Workshop

Wednesday 4 September 2019  
10am - 4pm  
Manchester City Centre

## ***Have you or a loved one been affected by cancer?***

If you or a loved one have experienced a cancer diagnosis, we'd like your help to identify under-researched topics in cancer research, by taking part in our upcoming workshop.

You'll work with researchers and health professionals to decide our final 'Top 10' unanswered research questions that could help detect cancer sooner, following a wider public survey earlier this year.

### **We can offer you:**

- Reimbursement for your time - though you must be able to attend the whole day
- Payment for travel expenses
- Refreshments provided

### **Get in touch:**

Ellena.Badrick@manchester.ac.uk  
0161 918 2349

*\*Please note, places are limited and we want to ensure patients, family and friends, and health professionals are represented equally. Whilst we will try to invite everyone who shows interest, this may not be possible.*
