James Lind Alliance Emergency Medicine Priority Setting Partnership

Summary

Thank you for your involvement in this project, we are delighted that you wish to contribute.

Please use this form to send your question/topic suggestions to the project team. If possible, please give as much detail as you can, but we understand this may not always be possible. All suggestions will be submitted to the Royal College of Emergency Medicine and considered by the Steering Group.
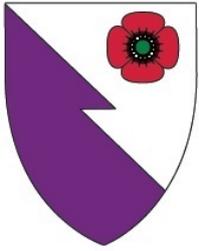

If you would like to submit more than one question/topic, please complete this form then submit another.

If you have any problems using this form please contact sam.mcintyre@rcem.ac.uk

* **Summary of your question/topic suggestion**

Firstly, we would like you to give us a summary of your question/topic suggestion. Please make this as detailed as possible, including the reason for suggesting this.

Suggested length: 250-500 words

Full details

Now we would like you to ask you for some more details about your question/topic suggestion. This section is optional, but details provided here will help the team to consider your suggestion in greater detail.

Research questions are sometimes framed in a PICO format, which identifies a population (P), intervention (I), comparator (C), and outcome (O).

To help you, here are some examples of research questions for other health conditions:
   • In (P) people with asthma are (I) breathing exercises helpful in (O) reducing symptoms?
   • In (P) children is (I) gargling aspirin more effective than (C) salt water in (O) relieving a sore throat?
   • In (P) people with angina is (I) exercise effective in terms of (O) preventing heart attacks?

Population - what patient population does your suggestion cover?

(e.g. adults with chest pain presenting to an emergency department, patients with medical illness/trauma, patients with mental health problems)

Intervention - what intervention(s) does your suggestion cover?
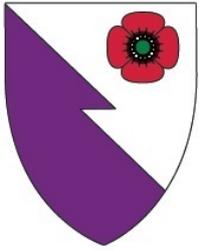

(e.g. a drug treatment such as a painkiller, a type of investigation, communication with patients)

Comparator - is there something to compare your suggestion to?

(e.g. routine care, another drug, a different type of investigation) - or not applicable (N/A)

Outcome - what outcomes are covered by your suggestion?

(e.g. survival, pain score, length of stay in department, patient satisfaction)

About you

We would like to ask a few questions about you. This helps us know who is responding to the questionnaire and to check if any groups are under or over-represented.

This section is optional.

If you leave your contact details we will keep you informed about the progress of the project, including opportunities to get involved or attend project events.

All information submitted will be encrypted and held securely in line with the Data Protection Act. Contact details you provide will never be shared with 3rd parties.

Which best describes your role?

◯ Consultant in Emergency Medicine

◯ Trainee (Doctor) in Emergency Medicine

◯ Nurse or Allied Health Professional working in an Emergency Department

◯ Patient

◯ Friend, family or carer

◯ Other (please specify)
