Glycogen Storage Disease
Priority Setting Partnership

Help us again in setting research priorities for liver GSD!

Survey: <https://tiny.cc/IGSDPSP-English>

From the responses to our first survey we formulated 72 summary questions. We need you to tell us which of these summary questions are most important for research to answer!

The International Glycogen Storage Diseases (IGSD) Priority Setting Partnership (PSP) is a group of health care professionals and patient representatives working together to find out research priorities for liver GSD.
