

## Engagement Summary

### JLA Malnutrition PSP

#### Gathering uncertainties

| Methods used (eg survey, focus groups, interviews): Survey |        |     |
|--|--------|-----|
|  | Number | %   |
| Total respondents (across all methods)                     | 268    | 100 |
| Total patients and carers                                  | 74     | 28  |
| Total health and care professionals                        | 194    | 72  |
| Total number of original uncertainties submitted           | 1128   | 100 |
| Original uncertainties in scope                            | 1031   | 91  |
| Original uncertainties out of scope                        | 65     | 6   |
| Original uncertainties verified as unanswered questions    | 32     | 3   |

#### Interim prioritisation

| Methods used (eg survey, focus groups, interviews): Survey                             |        |            |
|--|--------|------------|
|  | Number | %          |
| Total number of indicative questions (answered & <del>unanswered</del> )               | 81     | 100        |
| Number of verified answered questions  | 0      | 0          |
| Number of verified <b>un</b> answered questions  | 81     | <b>100</b> |
| Number of verified <b>un</b> answered questions included in the interim prioritisation | 81     | <b>100</b> |
| Total respondents (across all methods)   | 71     | 100        |
| Total patients and carers  | 18     | 25         |
| Total health and care professionals  | 53     | 75         |
| Number of questions taken to final workshop  | 26     |            |

#### Final workshop

|                                     | Number | %   |
|-------------------------------------|--------|-----|
| Total participants                  | 17     | 100 |
| Total patients and carers           | 5      | 29  |
| Total health and care professionals | 12     | 71  |

#### Notes

I recorded the verified answered questions differently as requested for above. Original uncertainties were checked as they were submitted and verified as answered at this point. Any indicative questions that were later identified as answered were back tracked to the original uncertainties they was made up and these uncertainties were marked as answered. Therefore above I have provided the total number of answered uncertainties rather than answered indicative questions.
