

Tell us what you think and help us change lives

Have you ever had a question about the most premature babies born before 25 weeks of gestation (i.e. around 4 months early) during their hospital admission, with a focus on the following:

- **Care and treatment of the most premature babies**
- **Mental health and wellbeing of parents and carers of the most premature babies**
- **Other relevant areas/aspects that could benefit from research**

If so, we would like to hear your questions. By completing this survey, you will help guide research into the most premature babies and their families, and make sure that researchers focus on the most urgent needs.

Whether you are an expert or not, you can take part. We want questions from people with different experiences and backgrounds. Some example questions are:

- *What is the best treatment for life-threatening lung damage in the most premature babies?*
- *How can infection in the most premature babies be better prevented?*
- *Why do I have problems with my hearing, but my brothers and sisters don't?*
- *How does having a premature baby born before than 25 weeks of gestation impact the mental and physical wellbeing of their parents?*
- *How can healthcare professionals in the neonatal unit best support the development of the most premature babies?*

Please return
your questions

Funded by the Nuffield Department Public Health (NDPH) Pump Priming Scheme, administered by the University of Oxford, for the UK arm of the project.
For the Australian arm of the project, funding is provided by the Royal Children's Hospital Foundation, Melbourne Australia.

Please tell us a little about yourself. We will use this information to make sure we are reaching a wide range of people and to better understand the needs of different groups:

Which of the following best describes you? Please tick all that apply:

- A parent/carer/family member of a premature infant born <25 weeks of gestation:
Specify gestation: weeks
- I was born prematurely:
Specify gestational age at which you were born: weeks
- A healthcare/social care/allied health professional:
Specify occupation/profession: _____
- A member from an organisation representing the interests of premature babies and their families.
- Other: *A person who identifies as:* _____

Where do you live?

- United Kingdom
 England *Wales* *Scotland* *Northern Ireland*
 Not in the UK: Specify: _____

What is your ethnicity/race? Please tick all that apply:

- Caucasian/White
 English *Welsh* *Scottish* *Northern Irish* *British*
 Any other Caucasian/White background
- Mixed or Multiple ethnic groups
 White and Black Caribbean *White and Black African* *White and Asian*
 Any other Mixed or Multiple ethnic background
- Asian or Asian British
 Indian *Pakistani* *Bangladeshi* *Chinese* *Any other Asian background*
- Black, African, Caribbean or Black British
 African *Caribbean* *Any other Black, African or Caribbean background*
- Other Ethnic Group
 Arab *Any Other Ethnic Group*
- I'd rather not say

Are you:

- Male Female Non-binary Prefer not to say I self-identify as: _____

How old are you?

- Under 16 16-25 26-35 Over 65 Prefer not to say

Which of the best describes the level of education you have completed?

- School (up to GCSE or equivalent) Higher Education (e.g. College/University)
 Secondary School (e.g. A-levels in the UK) Postgraduate Degree

If you would like to be contacted about the next stages in finding these important questions, please provide us your details:

Name: _____ Email: _____

Your personal details will not be shared with anyone else or used for any other purpose.

Thank you for your help. Please share our project with others who may be interested.

If you would like more information about this project, please contact the Project Lead; Dr Stacey Peart -
